

Specifically designed Injectable range for today's aesthetic practitioner to use with the Meso-Jet system.

Combining the latest skincare technologies including **BIOMIMETIC PEPTIDES, GROWTH FACTORS, STEM CELLS** and advanced **DOUBLE LAYERED CAPSULATION TECHNOLOGY** ensuring improved penetration of active ingredients enabling the aesthetician to deliver clinical proven results driven treatments.

## HSR – Hyaluronic Skin Rejuvenating

HSR is a clinically tested formula which helps to rejuvenate dehydrated or aged skin. It contains 1% of Hyaluronic Acid with the double concentration of other mesotherapy solutions. It provides the lost volume and binds 1000 times of its own weight in water by re-hydrating and plumping the dermis.

It includes recombinant growth factors for a human that naturally rebuilds the dermal collagen. The product also has Retinal, Glutathione and Ascorbic Acids that work as powerful antioxidants and direct stimulators of collagen that help to reduce pigmentation.

This skin rejuvenating Mesotherapy treatment reduces fine lines and wrinkles by producing new skin cells and increasing the elasticity of the skin by generating the synthesis of the collagen. It helps the skin to maintain the optimum moisture balance and hydrates dry skin.

This product treatment is recommended for mature or aged skin types.

RRP £175 x 5 Treatments

## SR – Skin Rejuvenating

A powerful anti-aging facial treatment which rejuvenate aging skin and reduces the appearance of wrinkles & fine lines. Contains pure hyaluronic acid to moisturize skin & shrink pores, it revitalizes dry & dull skin by stimulating cell proliferation.

Promotes production of collagen & elastin to enhance skin elasticity Unveils a firmer, softer, smoother, brighter and younger looking.

RRP £150 x 5 Treatments

## SB – Skin Brightening

Skin Brightening Mesotherapy works to reduce and prevent hyper-pigmentation and fight aged spots. The formula contains encapsulated Arbutin and Liquorice extract, which acts by aggressively blocking the conversion of L-DOPA to eumelanin and phaeomelanin by inhibiting the enzyme tyrosinase. Working to brighten and effectively prevent further skin pigmentation, leaves skin smooth soft and radiant.

Conditions Treated

- Sun Damage
- Sun Spots
- Freckles

RRP £150 x 5 Treatments

## HL – Anti-Hair Loss, Hair Regain

Anti-hair loss mesotherapy prevention, which promotes hair regrowth and scalp care. Works to improve hair loss and alopecia for both men and women. Induces hair growth by revitalising the hair follicles and stimulating blood circulation.

Improves scalp problems and increases thickness and fullness of hair throughout. Stimulates and strengthens hair follicles. Moisturises and nourishes hair and scalp.

RRP £80 x 10 Treatments

## Stem C'Rum SR

Adipose-Derived Stem Cell (ASCs) Medium Extract with Bioengineered Growth Factors ASCs are multi-potent cells that abundantly exist in tissue and therefore, they are ideal as a cell source in the field of regenerative medicine.

Stem C'Rum SR, reduces and prevents fine lines and wrinkles with newly generated skin cells. Strengthens skin elasticity by inducing the synthesis of collagen, elastin and other ECMs (Extra Cellular Matrix). Hydrates dry skin and helps to maintain the optimum moisture balance.

RRP £200 x 5 Treatments

# MESO-JET

FOR THE AESTHETICS PROFESSIONAL

## NEEDLE FREE INJECTION TECHNOLOGY

The introduction of No-needle injections to today's practitioner provides a safe and highly effective, accurate and consistent new delivery system for a multitude of solutions.

- Patented technology
- Low pressure delivery system
- 6 x smaller aperture than 30 gauge needle
- +/- 1% Accurate delivery of product
- Intradermal + Subcutaneous delivery
- Pain free delivery
- Uniform dispersion - for more efficient absorption
- Suitable for both face and body indications
- Fully adjustable and fixed dosage options

# THE SCIENCE OF NEEDLE FREE INJECTIONS

## CLINICAL BENEFITS— NO NEEDLE

MESO-JET no needle injectors provide aestheticians with the ability to further their clinical results whilst reducing the inherent risks compatible with needles.

- Safer for both patient and clinician, no pulling, minimal push back, no vascular occlusion or bolus
- Pain free for client comfort
- Accurate, constant and precise dosage from 0.02ml, 0.03ml or 0.05ml
- Better absorption rate for effective results

## TOTAL BUSINESS CONCEPT All You Need to Launch Needle Free Injections

1 x Meso-Jet Needle Free Injection System -  
Consumable Starter Kit -  
In-depth Training -  
Delivery and Installation -

Smart Skin Meso Therapy Injectable Pack -  
Containing growth factors, nano-peptides and stem cell

**Worth over £18,000 for fast ROI**

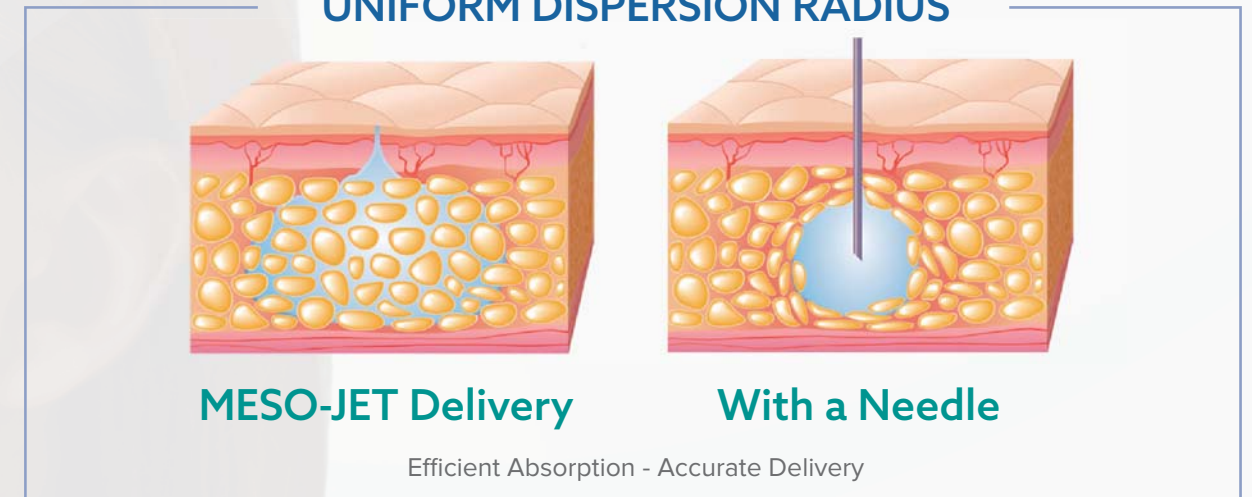

12 months Manufacturer's Warranty  
Salon Marketing Pack: POS, Social Media Images & Videos

## WHY MESO-JET?

The addition of a MESO-JET system offers today's clinic/practice a range of benefits to keep them at the forefront of treatment delivery and client care.

- Fast - reduces treatment time by up to 50%
- Opens new market opportunities (needle phobic)
- Creates USP to the clinic/practice
- Wide treatment application range
- Affordable and cost effective

## UNIFORM DISPERSION RADIUS

## TECHNICAL SPECIFICATIONS

Power Source	Standard gas cylinder or STD compressed air line
Performance	600+ injections / hour
Mode of Injection	Intradermal: Subcutaneous
Reservoir	Standard luer-lock 5ml up to 10ml sterile plastic syringe
Viscosity of Injectable	Injectable up to 120 cP
Dose Quantity	Fixed volume of 0.02ml, 0.03ml or 0.05ml
Precision	+/- 0.01 @ <0.2ml +/- 5% @ > 0.2ml
Material	Stainless steel, aluminium and plastic
Sterilization	Autoclave
Weight of Injector	Approx. 0.24 kg
Applications	Mesotherapy Local Anesthetics, General Routine Procedures, Clinical Dermatology, Hair

## MESO-JET

A fixed dosage system suitable for face and head treatments

- Mesotherapy
- Skin rejuvenation
- Dermal thickening
- Hair
- PRP
